CLAP

FORM N°122

Version : 2

Directive 97/23/EC

Keywords :

EAM

Inspection document

Material

European approval of materials

Directive references:

Annex I § 4 - 97/23 EC

Adopted by WPG: 24/03/2000

Adopted by CLAP: 24/03/2000

Subject: ESR on materials – Inspection document

Question:

Can a material manufactured according to a standard or another publicly available specification for which a European Approval of Materials (EAM) is available, but for which the inspection document only refers to the standard or the specification on which the EAM has been based, be used for pressure equipment manufactured under the PED?

Answer:

Yes, if the EAM does not have any additional technical specification compared to the standard or the specification.

The inspection document must satisfy the requirements of section 4.3 of Annex I (see also CLAP 12 - Guideline 7/5).

Modifications compared to the previous adopted version: Editorial correction on 2004-09-16.
