Subject: New approach – Declaration of conformity of assemblies

Question: What is the information to be given in the Declaration of Conformity of assemblies in order to comply with the 4th indent of Annex VII?

Answer: The declaration of conformity of assemblies must contain a description of all items of pressure equipment constituting the assembly together with, for each PED item, the conformity assessment procedure followed.

Note

This description includes the identification of the items of pressure equipment falling under category I to IV.

The other items taken into account in the assessment of the integration of the PED assembly (including Article 3 paragraph 3, Equipment or pressure equipment excluded from the PED) shall also be described as part of this assembly. This latter description may be by reference to appropriate information in the instructions for use (e.g. component lists, drawings). See also CLAP 183 - Guideline 3/13.
