

Guideline

I-19

CLAP

FORM N°X198

Version : 1

Directive 2014/68/EU

Adopted by WGP : 15/03/2016

Adopted by CLAP : 15/03/2016

Directive References: Article 4 § 3

Article 5 § 1

Subject: Miscellaneous – Information supplied for an item of pressure equipment which falls under sound engineering practice

Question: What information should be supplied with an item of pressure equipment, or an assembly, which falls under article 4 paragraph 3 (sound engineering practice, SEP) when it is placed on the market, to indicate that it complies with the provisions of article 4 paragraph 3?

Answer: There are no specific provisions in the directive on how the manufacturer must indicate that such equipment complies with the PED.

Nevertheless, the manufacturer must supply adequate instructions for use, and provide markings to permit identification of the manufacturer or its authorized representative established within the Community.

However, manufacturers should be aware that it is likely to be helpful if they include with the product a reference to the PED indicating that the requirement of sound engineering practice of a Member State (see Guideline I-01 (CLAP X180)) has been met. This can for example be achieved by a statement included with the instructions of use, by a separate document attached to the equipment, or by an addition to the marking.

Note: The manufacturer must not draw up, an EU declaration of conformity, nor affix the CE-mark for such equipment in the context of PED.
