| Guideline |   | A-04              | CLA           | ۱P            | FORM N°X011           |
|-----------|---|-------------------|---------------|---------------|-----------------------|
|           |   |                   |               |               | Version: 1            |
| Directive | 2014/68/EU  |                   | •             | Adopted by WG | <b>P</b> : 08/01/2016 |
|           |   |                   | Α             | dopted by CLA | <b>P</b> : 08/01/2016 |
|           | Direc   | ctive References: | Article 2 § 3 |               |                       |
| Subject:  | Scope - Substanti   | ial modification  |               |               |                       |
| Question: | When is a modification of a piping system not covered by the PED?   |                   |               |               |                       |
| Answer:   | When the content, main purpose and safety systems remain essentially the same, it may be regarded as a non-important modification of an existing piping system and is therefore not covered by the PED. |                   |               |               |                       |
|           | Reason:   |                   |               |               |                       |
|           | See Guideline A-03 (CLAP X010).   |                   |               |               |                       |
|           |   |                   |               |               |                       |
|           |   |                   |               |               |                       |
|           |   |                   |               |               |                       |
|           |   |                   |               |               |                       |
|           |   |                   |               |               |                       |
